

Wifi  
as low as  
**12c**  
per MB

# Frogfoot WiFi Internet

- The **Lowest** WiFi Internet pricing
- $\frac{1}{2}$  the price of 3G/HSDPA
- Pay per **Megabyte**, not per Minute

**Frogfoot Wifi** offers affordable, mobile Internet access without all the hassle of dealing with phone companies. You can now visit a range of **Wifi Hotspots** and connect at the same low price everywhere.

## How does it work?

Simple, you only pay for what you use. We don't rip you off. Some Hotspots charge for the time you spend online. This means that you're forced to cram in as many emails and web browsing as you can in the time you purchased. Nobody likes to be rushed.

We charge as little as **12 cents** for a **Megabyte** of usage.

No setup fees, no connection fees, no contracts required. You take no risk, but get the freedom to use this service when and where you like. We're currently the cheapest Wifi provider in the industry.

## Simple Pricing Model

Our pricing is the same at all the Hotspots in our network. Imagine if mobile phone calls cost 10 times the price at an airport or hotel. That would be crazy. With **Frogfoot Wifi** you know you always pay the same price per MB, no uncertainty, everywhere.

## Prices

Pre-Paid		
Product	Cost	Cost per MB
25 MB	R9.75	39c
150 MB	R49	33c
500 MB	R135	27c
